

Cures Baby's Summer Ills—FREE

The mother should watch her baby very carefully these hot days. If it refuses to play and to eat, if it is peevish and crying, look to the action of its bowels, for there lies the basis of health. Be careful of its diet. The food and water are germ laden. The fruit is too often over-ripe or unripe. If it has any indication of sickness, either in the form of constipation or diarrhea, give it a reliable tonic laxative like **DR. CALDWELL'S SYRUP PEPSIN**. This remedy is a standard in thousands of American homes for just such purposes. It is a favorite with children because of its taste, pleasant, and it never gripes. It is the one remedy best suited to the treatment of constipation and diarrhea. It also cures colic, indigestion, liver trouble, biliousness, sick headache, summer complaint, etc. It is equally as good for grown people, and we know thousands who no longer use strong salts, purgative waters, tablets, pills and such things, but take the sure, more gentle and pleasant **DR. CALDWELL'S SYRUP PEPSIN**. It can be obtained of any druggist at 50 cents or \$1 a large bottle. The entire family can use it, and as these ailments are seldomly the head of the household see to it that a bottle of **DR. CALDWELL'S SYRUP PEPSIN** is always at hand.

Those who have never yet used **DR. CALDWELL'S SYRUP PEPSIN** and would like to make sure before buying that they are getting the genuine article, should send for a FREE SAMPLE either for themselves or any member of their family by sending name and address to the doctor. The sample will be sent to your home free of charge. You can find out what it will do without cost. Also, if you can send me a few lines telling me how you feel, I will be glad to give you my best MEDICAL ADVICE, based on half a century of experience in the treatment of all the ailments mentioned above. I will also be glad to send you a FREE SUGGESTION TO MOTHERS' containing the doctor's advice on diet, hygiene, etc., in hot weather—a very important subject. The address is **Dr. W. B. Caldwell, 627 Caldwell Bldg., Monticello, Ill.**

STRONG FIGHT ON TWO MEMBERS

Active Democrats Enter Field Against Saunders and Leaman.

TRY HARD TO DEFEAT THEM

All Incumbents for House Will Run Again Except Harry C. Glenn.

Interest in local politics centered yesterday in the entries for the House of Delegates and the City Democratic Committee. The time for paying fees expired at noon, no persons being now allowed to enter. Nine men paid up for the House, four of them being incumbents. Harry C. Glenn, who has served for the past two terms in the House, declined to stand for re-election. Mr. Glenn declared that he had got all the honor that could be possibly conferred upon him by serving two terms, and that he saw no reason for making a third race, the result of which might prove uncertain.

There are contests in three of the wards for the City Committee. Clyde W. Saunders has opposition in Clay, W. P. Leaman in Madison, while there are six men running for the five places to be filled in Marshall. There is no disposition, so far as is known, to beat any particular man in Marshall, but so far as the City Committee is concerned, strenuous efforts will be made to defeat Saunders in Clay and Leaman in Madison. Oscar Lohman is a strong man. He will probably be elected in Madison, but indications are that he will not defeat Leaman. The new ward committee, Ryan, who was formerly the chairman of the Henrico County Democratic Committee. It is not improbable that Mr. Ryan will be elected.

Following is a complete list of those to be voted for on August 5:

House of Delegates—John S. Harwood, James B. Casey, George McD. Blake, Edwin P. Cox, John A. Curtis, Eugene C. Massie, Hill Montague, Charles E. Wingo, John B. Lightfoot, Jr.

City Committee: Clay—Clyde W. Saunders, H. Wilson Stone, E. W. Gardner, E. L. Ryan, W. B. Jennings, Horace B. Burnett, A. W. Browning. Madison—Oscar E. Lohman, Jesse A. Ladd, Harvey E. Atkinson, Barney Bowman, S. C. Shield, R. J. Lannahan, W. P. Leaman.

Marshall—Harry P. Garber, E. W. Evans, R. S. Goode, R. S. Tiller, John B. Welsh, James H. Bowen.

Jefferson—C. A. Weston, E. C. Hicks, James M. N. Allen, E. J. Fagan, C. R. Henry, M. H. Martin, W. G. Duke, Sam Steiner.

Leo—William M. Myers, J. W. Percival, Will E. Taylor, Gus Bernier, Charles V. Carrington.

Monroe—R. R. Florence, W. A. Graves, Hiram M. Smith, Frank Ferrandini, George M. Cense.

FELL FROM FIRE ESCAPE

Patient at Virginia Hospital Left Room

Miss Mary Hablison, for fifteen years a High School teacher, who in a dilirious moment early last Wednesday morning, fell from a fire escape in the room on the ground floor of the Virginia Hospital, and fell probably five feet from the fire escape, was reported last night as being in comfortable condition. She sustained a sprained ankle by the fall.

Miss Hablison has been in the hospital on account of a nervous breakdown since July 8. In explaining her rash act, the young woman said that she was "tired of the hospital and wanted to go home." She had completely dressed while her nurse was absent from the room, and when she returned Miss Hablison was gone. The nurse, who was frightened, called the police, and when she returned the room was empty.

FREE LECTURE TO-NIGHT

First of a Series Dealing With the Life of the Saviour.

The first of a series of two stereoscopic lectures on the "Life and Times of Jesus" will be delivered in the City Auditorium to-night at 8:15 o'clock. For a number of years the series of the most modern type has been obtained and the services of an expert operator have been secured. A careful attention has been given to arranging all the details for the prompt inauguration of the series of lectures. Social notice is made of the music, which will be in charge of a well-known local choir director, and familiar hymns will be used so that the audience may participate in the singing of the program. A corps of ushers will be in attendance to arrange for the prompt and comfortable seating of the audience. New lights have been placed in the Auditorium, and to-night they will be used for the first time.

DOPE ARTIST PICKS THREE WINNERS FOR TO-DAY'S RUN

Westerly Winds, Old Sol and High Temperature Three Best Bets in Weather Handicap—Northwest Breeze Easily Defeated in Saturday Stakes by Favorites.

Old Sol and High Temperature were coupled in the betting in a great race yesterday and won in a walk from Northwest Breeze, while Humidity and Clear Weather were pushing hard for the show money, but with a close decision favoring the latter.

The start was good, and over an easy track, but Rainfall noted badly from the original favorite, High Temperature, which was in a walk from Northwest Breeze, while Humidity and Clear Weather were pushing hard for the show money, but with a close decision favoring the latter.

Throughout the event was a breezy one, and though Rainfall was left at the post she ran a pretty race, and tried to nose out High Temperature, but finished badly in the rack. Several times she started to pull on Old Sol, but Apollo's three-year-old and the speed, and was never headed after leading High Temperature at the quarter.

The entries for today are Fair Weather, Westerly Wind, Slightly Cool, though it is whispered in the paddock that Slightly Cool is in bad shape and will probably be scratched.

A Starter Edward A. Evans promises a straight line at the barrier when

MANN PROBLEMS BEFORE COUNCIL

Site for Battle Abbey to Be Determined With Least Possible Delay.

AUTO AMBULANCE AWARD

Bids for Electric Plant Equipment to Be Opened Wednesday Night.

Council committees called for this week are so far only on the calendar for to-morrow and Wednesday nights. To-morrow afternoon a subcommittee from the Grounds and Buildings Committee, consisting of Messrs. Gunst, Satterfield and Don Leavy, will make a tour in an automobile of the several sites proposed for the Confederate Battle Abbey. They will report to a called meeting of the Grounds and Buildings Committee in time for a resolution to be forwarded to the next meeting of the Council, as the trustees are anxious to settle the matter of location and begin work on construction of the building.

The committee is said to be favorably disposed to the location suggested by Chairman Gunst of a large circle at the intersection of Monument Avenue and the Boulevard, with the building in the center of the two streets.

Owners May Offer Site. To do this it will be necessary to condemn a portion of each of the corners, but it is not believed that the damages, if any, would be large, as the owners would not be deprived of the right of use of the corners.

The committee is said to be favorably disposed to the location suggested by Chairman Gunst of a large circle at the intersection of Monument Avenue and the Boulevard, with the building in the center of the two streets.

Automobile Ambulance. To-morrow night the Committee on Relief of the Poor will meet to award a contract for the automobile ambulance.

The committee is said to be favorably disposed to the location suggested by Chairman Gunst of a large circle at the intersection of Monument Avenue and the Boulevard, with the building in the center of the two streets.

Form of Government. The Committee on Finance is also on the calendar for to-morrow night at 8 o'clock, and the Committee on Changes in Form of Government for 8:30 o'clock.

This latter committee is still hopelessly divided, with no prospect of getting together, and it is probable that the report of the committee will be merely forward certain data to the Council to be printed and filed, for the information of the members, to be useful when this matter comes up again at a later date.

The City Auditorium will probably instruct the next Legislature to ask certain charter changes which will give the Council greater powers, and more closely apply the principle of local self-government in city affairs.

It is probable that the effort will be made to simplify the legislative requirements in regard to local assessments, now regarded as one of the most cumbersome and curiously constructed pieces of legislation on the statute books.

Electric Bids. The Committee on Electricity meets Wednesday night at 8 o'clock to open new bids for the electrical apparatus for the municipal lighting plant, all former bids having been rejected by the Council after the committee had recommended award of the contract to the General Electric Company at a higher price than the bid of the Westinghouse Electric and Manufacturing Company.

The Electricity Committee will also at this meeting authorize the signing of contracts for the construction of buildings and other work in connection with the electric plant, for which the award of contract to the lowest bidder has already been approved by Council.

NOT A VOTER

Dr. Goraline Hardly Able to Serve, Therefore, on Committee on Relief of the Poor comes to the front with its troubles. At the last meeting, on recommendation of the medical staff, two physicians were elected to the medical staff of the City Home Hospital, to fill vacancies created by resignations. Sunday discovered that one of the physicians elected, and who is to serve without pay and give his time and professional ability to the poor of the city without charge, is not eligible, not being a qualified voter.

The physician elected, Dr. Goraline Hardly, is a resident of the city, and to-night they will be used for the first time.

MAY PLEAD INSANITY

Taylor, Who Killed His Wife, Sent on Trial for Murder.

Mordred H. Taylor, charged with the murder of his wife on July 6, through his counsel, yesterday morning, the case being certified to the Hustings Court grand jury for July 20. Though still apparently not a well man, Taylor seemed to have fully recovered from his self-inflicted wounds.

Taylor killed his wife, Annie M. Taylor, after a controversy said to have arisen over whipping one of the children. As soon as the husband learned that his wife had been killed, he went into the next room and shot himself at his heart, but struck a rib, which did not hurt him.

The wound was not serious, and was sufficiently healed at the City Home to have him stand on his feet a few days after the shooting. Taylor was represented by Attorney David Meade White and J. A. Smith. Among the witnesses on hand yesterday were two of Taylor's children, who were in the room when the shooting took place. Though the jury is expected to build their defense on the plea of insanity.

GIRL FIRES OLD PISTOL AT FRIEND

Vernon H. Kuhl Shot in Face in Romp, but Wound Is Not Serious.

THOUGHT GUN WAS UNLOADED

Express Messenger Points Pistol at Miss Jennings and She Fires.

Not knowing that the weapon was loaded, Vernon H. Kuhl, a driver for the Adams Express Company, was shot in the head yesterday afternoon by Miss Norma Jennings, in her home at 408 Moore Street. The bullet entered the right cheek and lodged near the roof of the mouth. The wound, though very painful, is not serious, and physicians say his recovery will be a matter of only a few days. Late last night Mr. Kuhl was resting peacefully, and showed no consciousness. There were several witnesses to the shooting, and they all say that it was purely accidental.

Pointed Pistol at Each Other. From the accounts given, it seems that Kuhl had an express package to deliver at the Jennings home yesterday afternoon between 2 and 3 o'clock, and carried it into the front room, where several members of the family were sitting. He asked to be allowed to use the telephone, and afterwards began to romp with Miss Jennings. He reached in his pocket and pulled out a pistol, which, as an expressman, he is permitted to carry, carefully unloaded. He pointed it at the young woman.

She quickly ran back, picked up an old pistol which had been lying about the house for some time, and which no one had any idea was loaded, and pointed it at his head.

A second later she pulled the trigger. A loud report was heard and the young man fell to the floor with blood spurting from his face.

Wound Is Not Dangerous. He was picked up and laid on a sofa. In a few minutes he recovered from the shock and was able to assure the horrified family that he was not seriously hurt. The ambulance was called at once. Dr. Collier, who was in charge, responded and had temporary first aid given to the wound when Dr. J. H. Hinchman, the family physician, arrived. A careful examination showed that though the wound was 3 1/2 inches long and deep, there should be no dangerous results. Mr. Kuhl was removed to his home, 113 North Clay Street, and was expected to be home in a few days.

PERMIT GRANTED KEPT AMBULANCE COLORED BANK SURGEON ON RUN

Mechanics' Savings to Erect Four-Story Building at Third and Clay Streets.

Building Inspector Beck yesterday issued a permit to John Mitchell, colored, president of the Mechanics' Savings Bank, to erect a four-story stone and brick building to be used as a bank, at the northwest corner of Third and Clay Streets, to cost \$20,000. D. J. Farrar, colored, is named as the general contractor. The application for the erection of a bank on that corner was the subject of a vigorous protest last night by the white property-owners on the block, who applied to stop construction, applied for the establishment of a building line fifteen feet back from the street. It developed in the discussion that one of the signers of the petition was not the property-owner of record, and after some debate as to the relative advantages and disadvantages of having a colored banking institution running flush out to the street, or having the two houses now on the lot rented to colored people, the committee decided to grant the permit.

Since Inspector Beck, under the Building Code, must act within ten days on all applications for permits, either approving or rejecting them, and since the plans, drawn by a white architect, were in conformity with the code, Inspector Beck had no option yesterday but to issue the permit. John Mitchell, president of the bank, informed the committee that he owned a number of other houses on the street, all rented so far to white tenants, two of them just opposite the Clay Street Methodist Church, intimating that he could put the bank on that lot if the building line ordinance stopped him at Third and Clay Streets.

Other permits issued yesterday were as follows: Charles D. McEwen, to erect a two-story brick dwelling on the north side of Jefferson Park, between Nineteenth and Mosby Streets, to cost \$5,085. James Caskey, to repair a brick store and dwelling, 427 North Sixth Street, to cost \$300.

James Moran Improving. James Moran, of 505 North Thirtieth Street, who fell from a scaffold Friday at Barton Heights, sustaining serious injuries, is reported as slowly improving.

Kill Fellow-Patient. STAUNTON, Va., July 17.—William Layton, a colored man, who was an inmate of the Western State Hospital, today stabbed and killed a patient named James H. Hooton, and seriously injured another patient. Hooton had been an inmate of the institution for forty-six years.

RICHMOND FOLK GOING BROAD

Many Engage Passage for European and Coastwise Points.

Richmond people who engaged passage for European and coastwise points during the past week through S. H. Bowman, include the following:

Mrs. E. N. Goodnow, Miss M. N. Woodbridge, W. L. Dechert, F. L. Sublett, John H. Carber, steamship Baltic.

Mrs. John Dunlop, Mrs. Charles Evelyn Smith, Mrs. Corydon H. Sutton, Miss Sadie G. Sutton, steamship Lapland.

Miss Mattie W. Purcell, Miss Louise G. Purcell, steamship Furnessia.

Gustave Kohn, steamship Kronprinzessin Cecilie.

E. H. Sutton, steamship Bermudian.

Alfred G. Nichols, Sidney J. Siddleton, steamship Mauretania.

P. E. Hartwell, Mrs. F. E. Hartwell, Miss Eva Hartwell, Master Ralph Hartwell, steamship Caracas.

PITCHER WINS IN GAME OF HEARTS

Curtis Walker, Now on Danville Team, Married Here to Miss Haskins.

Although not a success as a pitcher for the Richmond Baseball Club, Curtis Walker, of Philadelphia, during his stay of several months in this city, seems to have held the high card in the game of hearts, and his pretty little romance culminated last night. His bride is Miss Alvah
